

PACKING OPERATIVE

THE ROLE

Do you have a high standard of due care and an impeccable attention to detail?

DAY-TO-DAY DUTIES

- Pack aluminium extrusion following instructions generated by our production system; such as number of pieces per stillage, origin basket numbers, packing specification, etc.
- Correctly register number of pieces, in original baskets and final stillages, and also apply labels
- Record unplanned scrap on the production system in accordance with pre-set rules
- Collaborate in the identification of potential non-conformities, driven by the control plan
- Backup to packing supervisor in the full scope of responsibilities including (but not limited to) extrusion hardness measuring and registering using production system
